

Pharmaself24

Transform prescription collection services with simple and secure dispensing

The latest in automated pharmacy solutions offering a prescription collection system that gives your patients the convenience of 24/7 access to their medicines. This simple and secure dispensing solution enables pharmacies to have a competitive advantage to easily scale their business and strengthen customer loyalty.

Benefits for your business and patients

- Free up staff time and divert resources to more valuable resources
- Enhance the patient experience through added convenience
- Attract new patients and maintain the loyalty of existing ones
- An adaptable solution to safeguard and drive revenue and growth.
- Enables your patients to collection their medication at any time
- Increased medicine output by eliminating manual tasks

Pharmaself24 adds a further pair of hands to your pharmacy team.

Without Pharmaself

10,000 - 15,000 items dispensed per month.

500-800 bags needing to be stored on a shelf to be distributed to patient on their arrival during opening hours.

Staff need to spend **3-4 minutes** handing out each bag, for **500-800** individual prescriptions every month.

With Pharmaself

500-800 people a week who could collect from the PS24.

Bags automatically **loaded** into pharmaself, reducing the need for storage.

Removes **500-800 times** staff need to spend handing out a bag.

Saving up to 53 hours per month in staff time alone.

NEW
